## 1. Summary of Operating Results, etc.

### (1) Summary of Operating Results for the Fiscal Year ended March 31, 2019

During the fiscal year ended March 31, 2019 (hereinafter, “the current fiscal year”), the U.S. economy continued to expand while Europe started to show a downward trend mainly in the Euro zone. The Chinese economy also showed a decelerating trend with a decline in growth rate of production and consumer spending.

The Japanese economy had continued to recover gradually but started to show a sign of slowdown in export and production.

In the global market, demand for both air and sea freight continued to grow steadily overall, despite slowing upward trend.

Under such circumstances, the KWE Group’s freight operations saw air freight exports rose 3.6% year-on-year to 600 thousand tons, and air freight imports increased 0.9% to 1,340 thousand shipments. Sea freight exports increased 5.4% to 700 thousand TEUs, and imports rose 3.4% to 287 thousand shipments. Logistics showed stable growth overall due to business expansion mainly in East Asia.

Operating results by each segment are as follows:

#### *Japan*

Air freight exports rose 4.6% year-on-year to 160 thousand tons due to a steady increase in automotive-related products and semiconductor-related products. Air freight imports increased 1.0% to 364 thousand shipments due to a growth mainly in electronic products. As for sea freight, exports increased 2.4% to 149 thousand TEUs due to increases in machinery and equipment-related products, and imports grew 0.8% to 115 thousand shipments due to a steady movement in electronic products. In logistics, the handling volume grew due to increases mainly in electronic products and healthcare-related products.

As a result, net sales for the segment, including domestic subsidiaries, increased 14.0% to 145,669 million yen. However, operating income decreased 6.7% to 5,777 million yen mainly due to higher direct cost ratio and expenses to enhance the operation platform.

#### *The Americas*

Air freight exports rose 8.3% to 111 thousand tons due to steady movements mainly in healthcare-related products and electronic products. Air freight imports rose 7.4% to 134 thousand shipments due to increases in machinery-related products and electronic products. In sea freight, exports increased 4.6% to 48 thousand TEUs due to an increase in aerospace products, and imports grew 10.9% to 37 thousand shipments due to steady movements in machinery-related products and construction materials. In logistics, the handling volume expanded in the U.S. and Canada.

As a result, net sales for the segment increased 15.6% to 61,534 million yen. However, operating income decreased 5.3% to 3,391 million yen due to an impact from a rise in direct cost ratio.

The exchange rate was U.S. \$1 = ¥110.91 and U.S. \$1 = ¥110.85 for the fiscal year ended March 31, 2019 and 2018, respectively.

#### *Europe, Middle East & Africa*

Air freight exports increased 6.9% to 67 thousand tons due to a growth mainly in healthcare-related products. Air freight imports rose 7.9% to 131 thousand shipments due to increases in electronic products and automotive-related products. Sea freight exports decreased 7.2% to 18 thousand TEUs due to decreases in machinery-related products and automotive-related products, but imports grew 6.7% to 16 thousand shipments due to increases in machinery-related products and electronic products. In logistics, the handling volume increased mainly in Russia.

As a result, net sales for the segment increased 8.5% to 41,934 million yen, and operating income rose 124.8% to 1,402 million yen thanks to an improvement in profitability.

The exchange rate was €1 = ¥128.41 and €1 = ¥129.70 for the fiscal year ended March 31, 2019 and 2018,

respectively.

### ***East Asia & Oceania***

Air freight exports rose 3.0% to 150 thousand tons due to a steady increase mainly in electronic products. However, air freight imports started to show a decelerating trend in the second half of the fiscal year and fell 2.0% to 488 thousand shipments. As for sea freight, exports grew 14.2% to 227 thousand TEUs due to increases mainly in automotive-related products and electronic products, and imports increased 2.4% to 62 thousand shipments due to a steady movement in electronic products. In logistics, the handling volume increased mainly in China, South Korea, and Taiwan.

As a result, net sales for the segment increased 5.6% to 101,531 million yen. However, operating income decreased 7.8% to 5,193 million yen due to an impact from higher direct cost ratio.

### ***Southeast Asia***

Air freight exports fell 3.3% to 110 thousand tons due to a decrease in shipment of electronics products and air freight imports fell 0.2% to 221 thousand shipments due to a sluggish movement overall. As for sea freight, exports rose 17.0% to 166 thousand TEUs due to favorable growth in automotive-related products and motorcycles, and imports grew 4.7% to 55 thousand shipments due to increases in electronic products and automotive-related products. In logistics, the handling volume increased mainly in India and Thailand.

As a result, net sales for the segment increased 5.9% to 57,966 million yen. However, operating income decreased 18.3% to 2,661 million yen due to an impact from a rise in direct cost ratio.

### ***APLL***

As for logistics services for automotive, the handling volume increased mainly in North America and finished cars transportation in India also increased steadily. For retail-related logistics service, the handling volume in logistics services showed a steady growth mainly in major customers, and consumer and other industrial products also showed solid growth.

As a result, net sales of APLL increased 1.1% to 196,923 million yen and the company secured operating income of 8,517 million yen (rose 104.8%) through its effort to improve operating margin including reduction of selling, general and administrative expenses. Operating income was 2,203 million yen (operating loss of 1,986 million yen in the previous year) as amortization of goodwill related to APLL acquisition is included in this segment.

The exchange rate was U.S. \$1 = ¥110.43 and U.S. \$1 = ¥112.19 for the year ended March 31, 2019 and 2018, respectively (APLL used the average rate for the period from January 1 to December 31 because APLL's fiscal year-end is December 31).

As described above, net sales for the current fiscal year increased 7.0% to 592,009 million yen, operating income rose 18.5% to 20,797 million yen, ordinary income increased 15.0% to 19,939 million yen, and net income attributable to owners of the parent rose 40.8% to 9,857 million yen.

## **(2) Summary of Financial Position**

Total assets as of March 31, 2019 decreased 1,115 million yen from March 31, 2018 to 388,467 million yen.

Current assets increased 8,498 million yen to 202,018 million yen mainly due to an increase in cash and deposits of 7,492 million yen.

Non-current assets decreased 9,613 million yen to 186,448 million yen due to a decrease in intangible assets of 6,645 million yen primarily resulting from amortization of goodwill, and a decrease in investments and other assets of 2,356 million yen primarily resulting from accounting for using equity method.

Total liabilities decreased 3,950 million yen to 256,643 million yen.

Current liabilities decreased 318 million yen to 122,729 million yen due to a decrease in other current liabilities of 2,413 million yen while notes and operating accounts payable—trade increased 1,116 million yen.

Non-current liabilities decreased 3,631 million yen to 133,913 million yen mainly due to a decrease in long-term loans payable of 5,659 million yen while net defined benefit liability increased 2,866 million yen.

Net assets as of March 31, 2019 increased 2,835 million yen to 131,823 million yen mainly due to an increase in retained earnings of 7,985 million yen resulting from recording net income attributable to owners of the parent of 9,857 million yen and cash dividends paid of 1,871 million yen, despite decreases in foreign currency translation adjustment of 3,603 million yen as a result of a stronger yen compared to March 31, 2018 and in remeasurements of defined benefit plans of 1,847 million yen.

Consequently, the equity ratio increased to 31.3% from 30.7% as of March 31, 2018.

### (3) Cash Flows

(Millions of yen)

	FY3/18	FY3/19	Change

Cash and cash equivalents as of March 31, 2019 totaled 75,799 million yen, an increase of 7,943 million yen year-on-year.

Cash flows from each activity and their significant factors are as follows:

(Cash flows from operating activities)

During the fiscal year ended March 2019, operating activities provided net cash of 22,637 million yen, an increase of 7,573 million yen year-on-year. This mainly reflected cash inflows due to income before income taxes of 19,978 million yen, depreciation of 8,418 million yen, amortization of goodwill of 3,666 million yen, share of loss of entities accounted for using equity method of 2,628 million yen, and an increase in notes and accounts payable-trade of 2,090 million yen, and cash outflows due to income taxes paid of 9,751 million yen and other, net of 3,434 million yen.

(Cash flows from investing activities)

Net cash used in investing activities totaled 7,312 million yen, a decrease of 2,718 million yen year-on-year. This mainly reflected cash outflows due to purchase of property, plant and equipment of 4,702 million yen, and purchase of intangible assets of 2,907 million yen.

(Cash flows from financing activities)

Net cash used in financing activities totaled 6,868 million yen, an increase of 4,114 million yen year-on-year. This mainly reflected cash inflows due to proceeds from long-term loans payable of 4,800 million yen and net increase in short-term loans payable of 1,904 million yen, and cash outflows due to repayments of long-term loans payable of 10,602 million yen, cash dividends paid of 1,871 million yen, and dividends paid to non-controlling interests of 821 million yen.

Market-value-based equity ratio = Total value of shares / Total assets

Interest-bearing debt to operating cash flow ratio = Interest-bearing debt / Operating cash flows

Interest coverage ratio = Operating cash flows / Interest payment

#### **(4) Future Prospect**

The future prospect appears to remain unpredictable as uncertainties arising from U.S.–China trade friction, the Brexit concerns, the slowdown of Chinese economy, and a lull in transportation demand for semiconductors and electronic components have surfaced in the global logistics market.

Under these circumstances, the Group developed a Long–Term Vision for the future, “Global Top 10 Solution Partner – A Global Brand born in Japan,” and the new Medium–Term Management Plan for the three–year period from the fiscal year ending March 31, 2020. (The detail will be released on May 10, 2019.)

While the Group earnings going forward are likely to be affected by the global economy, exchange rates, and other factors, the forecasts for the fiscal year ending March 31, 2020 at this point are net sales of 620,000 million yen (up 4.7%), operating income of 22,000 million yen (up 5.8%), ordinary income of 21,300 million yen (up 6.8%), and net income attributable to owners of the parent of 10,500 million yen (up 6.5%).

#### **2. Basic Approach to Selection of Accounting Standards**

In preparation for adopting IFRS (International Financial Reporting Standards) in the future, the Group is now considering matters such as documentation of accounting policies and the timing of adoption.

(Segment Information)

**[Segment information]**

**1. Summary of reportable segments**

**(1) Method for determining reportable segments**

Reportable segments are determined based on the parts of the business for which it is possible to obtain separate financial information and that the Board of Directors regularly examines in order to evaluate decisions on allocation of management resources and earnings. KWE's reportable segments consist of the following six segments: "Japan", "The Americas", "Europe, Middle East & Africa", "East Asia & Oceania", "Southeast Asia", and "APLL".

**(2) Services of each reportable segment**

In "Japan," "The Americas," "Europe, Middle East & Africa," "East Asia & Oceania," and "Southeast Asia," the Company provides services focused on air freight forwarding, sea freight forwarding, and logistics (warehousing). In "APLL," the Company provides services focused on logistics (truck and rail transport, and warehousing) and sea freight forwarding.

**2. Calculation method used for sales, income/loss, assets and other items for each reportable segment**

The accounting treatments used for reportable segments are consistent with those applied to the consolidated financial statement. Segment income (loss) refers to operating income (loss) for each reportable segment. Inter-segment sales/transfers are based on market value.

### 3. Information about sales, income / loss, assets and other items for each reportable segment
