

# **KWE MALAYSIA** **IN ACTION**

August 2024 - Executing high-value charter movements for Malaysia's growing semiconductor industry.

From global origins to inland delivery, KWE orchestrates every semiconductor shipment with precision, visibility, and uncompromising care.

KWE supports semiconductor expansion projects across Malaysia through carefully planned charter operations, reinforcing our ability to connect global precision with local execution.

Each move undergoes meticulous route surveys, customized packaging, and expert handling by teams working in close coordination with global stakeholders.

# PRECISION LOGISTICS FOR MALAYSIA'S SEMICONDUCTOR GROWTH

KWE caters to the growing demand for high-value and time-sensitive shipments with specialized handling and project expertise.

What can **KWE** do for you?

Clean & controlled transport conditions to prevent contamination.

Vibration, tilt, and shock-proof handling for high-precision machinery.

Time-definite delivery schedules to align with strict project timelines.

Specialized documentation & compliance support.

24/7 visibility & coordination across multiple global origins.

KWE supports semiconductor expansion projects across Malaysia through carefully planned charter operations, reinforcing our ability to connect global precision with local execution.
