Ho Chi Minh City

Synchronized Air Freight Operation

Solution Design for Time-Critical Shipments

Time-sensitive cargo is managed through operational coordination aligned to customer schedules.

Process

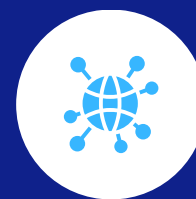

KWE supports daily evening departures from Vietnam for next-morning arrival in Los Angeles. It manages the critical outbound segment by completing export procedures in Ho Chi Minh City and securing scheduled flights.

- 1 Shipment received and prepared in line with required departure schedule
- 2 Export procedures and documentation completed by KWE team
- 3 Cargo uplifted on outbound flight to destination
 - Routing options evaluated across multiple airline partners based on customer requirements
 - Primary carrier selected with contingency options identified in case of disruption

Advantages

Flexible Schedules
Shipment schedules
aligned to requirements

Operational Continuity
Backup solutions to
mitigate disruptions

Planning Certainty
Committed lead time
support operations
